

2024-2025 School Tuition and Fees

St. Peter’s School follows a 60/30/10 funding model, in which 60% of school operating costs are paid by school families in the form of tuition, 30% is paid by the parish community, and 10% is derived from fundraising.

Active parishioners pay a reduced in-parish tuition rate, which is less than the cost to educate and is subsidized by the parish. Parish families are also asked to prayerfully consider making a tithing contribution in support of all parish ministries, including the school. The tuition for non-parishioners is reflective of the full cost to educate. All school families are asked to participate in fundraising efforts.

A financial aid program is available for qualifying families. Those interested should inquire with the school office or consult our website, school.stpkc.org.
